

## Concrete Hopper

Concrete Hoppers - This attachment is a self-dumping hopper that automatically triggers to dump when bumper release touches the side of a dumpster. Once unloading is completed, the hopper returns to a locked and upright position. This piece of equipment is likewise existing with a cable that allows operation from the seat of the forklift to be able to have the option of manually unloading the hopper. There is a locking chain provided so as to secure the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
