

Meritor Parts

Meritor Part - Meritor is a leading global supplier that is proudly built on a 100 year custom of service and quality. They specialize in various integrated systems, modules and components to original machine makers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused workers. These top-caliber workers can rapidly adapt to changing environments and freely demonstrate the level of performance and commitment needed in order to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides all their workers various opportunities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of axles, drivelines, braking and suspension systems designed for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the world in 19 nations and in 5 different continents.

They have their supplier network that is specially situated in order to support the development of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within each and every aspect of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who apply Six Sigma tools to business techniques and implement lean methods.
